

Trip Generation Project

ADR

Equipment

Weights roughly 14 lbs.

Hose

Hammer

Friction Tape

PK Nail

Curb Iron

Curb Irons

Setup

2 Hoses
(2 ft apart)

Curb Irons

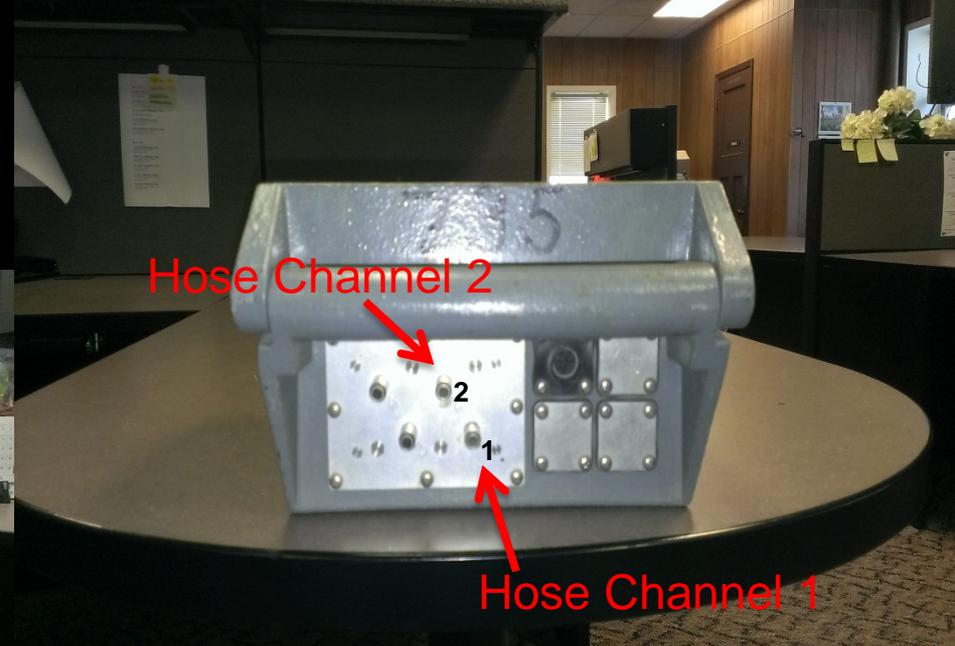

Machine

Setup

Setup

Always try to put the machine on the side where the cars are driving in.

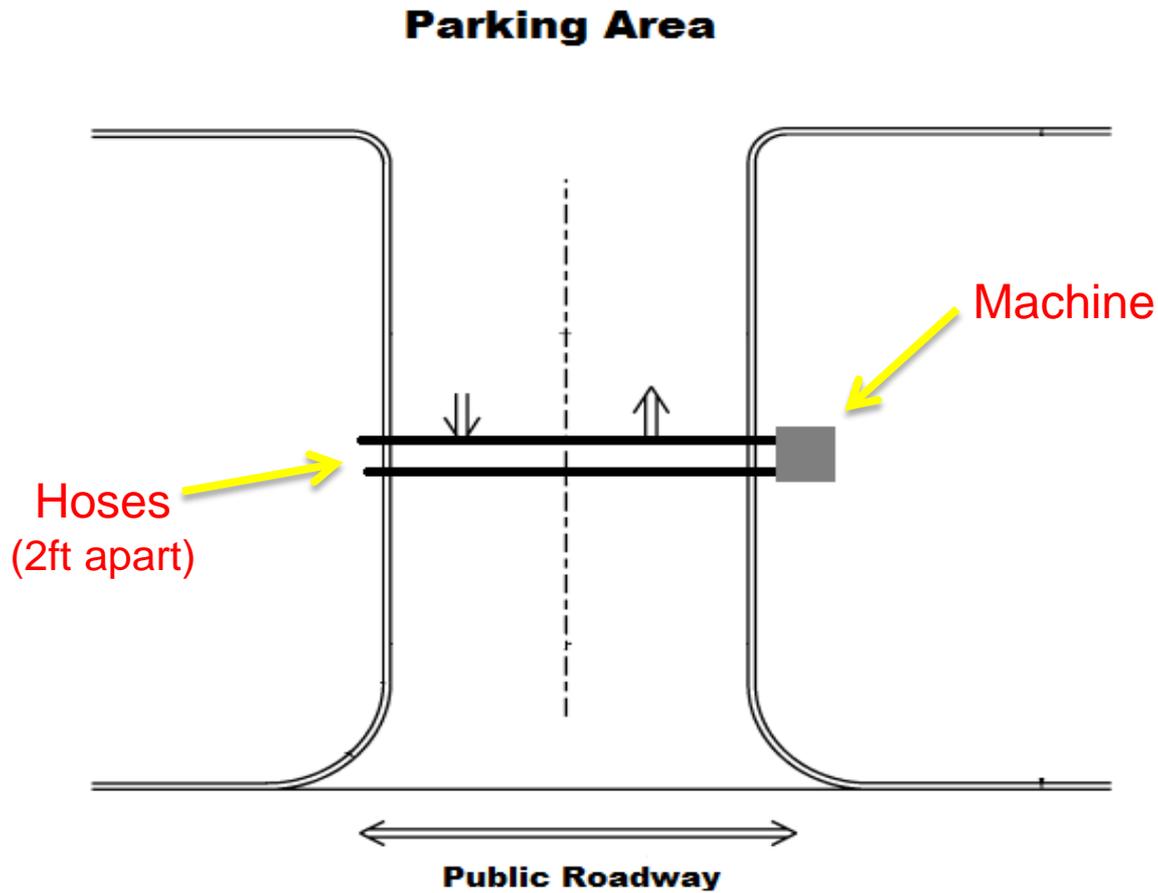

The hose that is hit first driving **into** the parking lot will be put on air channel 1.

Sidewalk

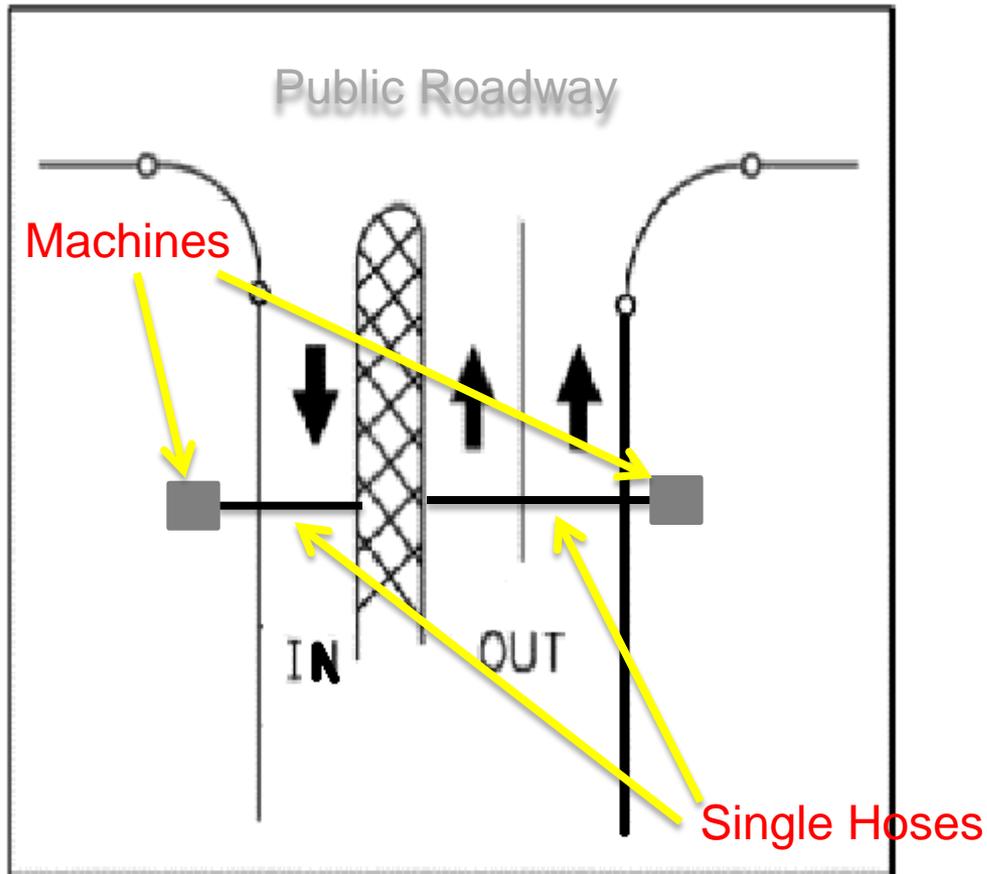

Note: Hose can never cross a sidewalk.

Locations

Setup you use:
2-Dir_60.stp or
2-Dir_15.stp

Locations

Since these are divide driveways and only one way entrance and exit, we only need 1 hose across each driveway but we need 2 machines.

Setup file you use:
60_MIN_V.STP

Data

Tuesday Morning
4/9/13

<u>Time</u>	<u>In</u> Channel 1	<u>Out</u> Channel 2
0600	0034	0016
0700	0088	0031
0800	0089	0035
